

Notice of closure of the Kenilworth Greenway

Working on
behalf of

Early works for High Speed Two (HS2), the new high speed railway for Britain, are underway in this area.

HS2's early works contractor, the Laing O'Rourke and J. Murphy & Sons (LM) joint venture, has closed a section of the Kenilworth Greenway to ensure everyone's safety while they are working. Further works will also be undertaken in this area by the main works contractor BBV, a joint venture between Balfour Beatty and VINCI.

This closure is due to be in place from early Autumn 2020. A full diversion route is being created and is expected to open in late 2020. In the meantime, anyone still wanting to use the Greenway is advised to use a mixture of the HS2 alternative paths and existing public rights of way. Some of these routes cross the closed Greenway, but a number of these crossing points remain open. Please refer to this map for more information.
